Balancing Diuretic Therapy in Heart Failure: Loop Diuretics, Thiazides, and Aldosterone Antagonists US Pharm. 2013;38(11):65-68. ABSTRACT: Urinary tract infection (UTI) is one of the most commonly diagnosed infections in both outpatient and inpatient populations. Blood pressure medications can cause kidney damage by slowing down the rate at which kidneys filter blood, in addition to decreasing blood flow to the kidneys. Pharm.D is a professional degree honored for students who undergo their graduation course in Pharmacy Doctoral Programme. The Pharm D took its origin from a latin ...
